

Integrity Declaration Draft

We declare that this submission was produced for VietAI Advanced NLP06 Assignment 03 by the named team members.

Team Members

- Melanie
- Student ID: TBD
- Kaggle ID: yeyeezyzeus
- Nguyen Phan Nguyen - Stephen
- Student ID: TBD
- Kaggle ID: nguynphannguyn

Declaration

We confirm that our team did not retrieve, reconstruct, manually label, or share answers for specific competition test samples. We did not use matched transcripts, subtitles, source documents, metadata, another team's predictions, or leaderboard probing to obtain test labels. All external and synthetic data used by our system is disclosed in the report.

Kaggle submissions were generated from our implemented EvoAgent pipeline, ARC GPU inference runs, fine-tuned model inference, documented API model inference over assignment-provided context, deterministic CSV hybrid rules, and documented post-processing/ensemble experiments. No Hugging Face token, Kaggle token, private key, model weight, cache, or secret is intentionally included in this package.

Signatures
